Contributing: 1 building

45. Description and House Plan:

The three-bay front block of the house consists of two rooms, parlor and bedroom, and the ell also consists of two rooms, dining room and kitchen. The porch in the angle of the ell has been enclosed. The 1/1 windows are topped by cornice strips, the transoms over the doors are concealed with wooden covering, and each of the three gables is fitted with a rectangular vent equipped with a hinged louvered shutter. There is no front porch, and apparently never was one, and the wide porch at the entrance to the kitchen is apparently an early 20th century addition. The flue at the ell gable is a more recent addition. The original two chimneys are decoratively corbeled.

Little-changed since the construction of the house, the interior features black iron mantels stenciled in gold, built-in closets flanking the gable window in the bedroom, and a built-in corner cupboard in the dining room. The woodwork includes bull's eye corner blocks in the two front rooms, plain trabeated woodwork in the kitchen, and very eccentric surrounds in the dining room, consisting of vertical moldings cut in jagged peaks at the tops connected by plain horizontal members.

There are no outbuildings.
