Underfeeds Save Money

Most Heating Systems are an actual drag on the domestic treasury. Why not keep some of the coal man's rich profits for yourself? CLEAN, EVEN HEAT at a cost which figures up just about one-third to one-half as much as you are NOW paying, is insured to all users of

PECK-WILLIAMSON UNDERFEED FURNACES AND BOILERS.

Take your choice of systems—WARM AIR, STEAM or HOT WATER. Cheapest slack yields the same splendid results as the most expensive kinds which ordinary heating plants require. All the fire is on top, turning smoke and gases into money. This means that you can

SAVE ½ TO ⅔ OF COAL BILLS.

Let us tell you about the best and most economical heating system on the market. Write us and we will have a salesman see you. We also make the best line of top-feed furnaces and boilers on the market. Prices most reasonable. Don't fail to get our estimate if you are in the market for anything in the heating line.

Attention! Tobacco Growers

While at the Fair you are invited to visit the Falmouth Loose Leaf Tobacco Warehouse.

You are to have a home market where you can sell your tobacco to the highest bidder. Now, do not sell your tobacco at home, but as fast as you get a load stripped, bring it to the market and continue doing this right along until you have disposed of your crop. You will find this the most satisfactory way of selling tobacco, as you will get the average for the time you are selling.

All the manufacturers will be represented on your market.
