A correct map of the locality and adjacent country might be furnished by your County Surveyor, but this must be without expense to the Post Office Department: it being, however, for the general interest and advantage of the community to have the Post Offices correctly located on the maps, it may be expected that this will be cheerfully furnished on proper application.

State (on margin of this sheet) whether there is on file at your county seat (court-house), or in the hands of your County Surveyor, a Map of the county.
