Post Office Department,
TOPOGRAPHER'S OFFICE,
Washington, Oct 4, 1888.

Sir:

To enable the Topographer of this Department to determine, with as much accuracy as possible, the relative positions of Post Offices, so that they may be correctly delineated on its maps, the Postmaster General requests you to fill up the spaces below, and the diagram on fourth page, returning the same, verified by your signature and dated, under cover to this Office.

Respectfully, &c.,

David Enright
Topographer P. O. Dept.

TO POSTMASTER AT

Dover,
Mason Co.,
Ky.

The (P. O. Dept.) name of my Office is Dover

* Its local name is Dover

It is situated in the North Western quarter of Mason Co. Section No. _____, in Township Dover Precinct (north or south), Range _____ (east or west), County of Mason, State of Kentucky

The name of the most prominent river near it is Ohio River
The name of the nearest creek is Lees Creek
This Office is on _____ miles from said river, on the South side of it, and is one third miles from said nearest creek, on the West side of it.

The name of the nearest Office on route No. 2002⁰ is August Ky., and its distance is 7 miles, by the traveled road, in a nearly South direction from this my Office.

The name of the nearest Office, on the same route, on the other side, is Maysville Ky. and its distance is 11 miles in a South East direction from this my Office.

The name of the nearest Office off the route is Xenia Ohio, on opposite side of Ohio River, and its distance by the most direct road is 2 1/2 miles in a North direction from this my Office.

This office is at a distance of 70 feet from the _____ track Station of the Maysville & Big Sandy Railroad, on the South side of the railroad.

State, under this, the names of other Offices near your Office, in different directions from it, and their distances from it by the most direct roads.

Repley Ohio, 2 1/2 miles East - Minerva Ky, 5 miles South - Higginsport Ohio, 5 miles West -

If the town, village, or site of the Post Office be known by another name than that of the Post Office, state that other name here, that it may be identified on the map of the State (or Territory).

A diagram of the township and sections (or, where the land is not so divided, a sketch map), showing the precise location of your Office, together with the adjoining Post Offices, towns, or villages, the roads, railroads, and larger streams or creeks, in addition to the above, will be useful, and is desired.—(See diagram blank accompanying this, to be filled up.)

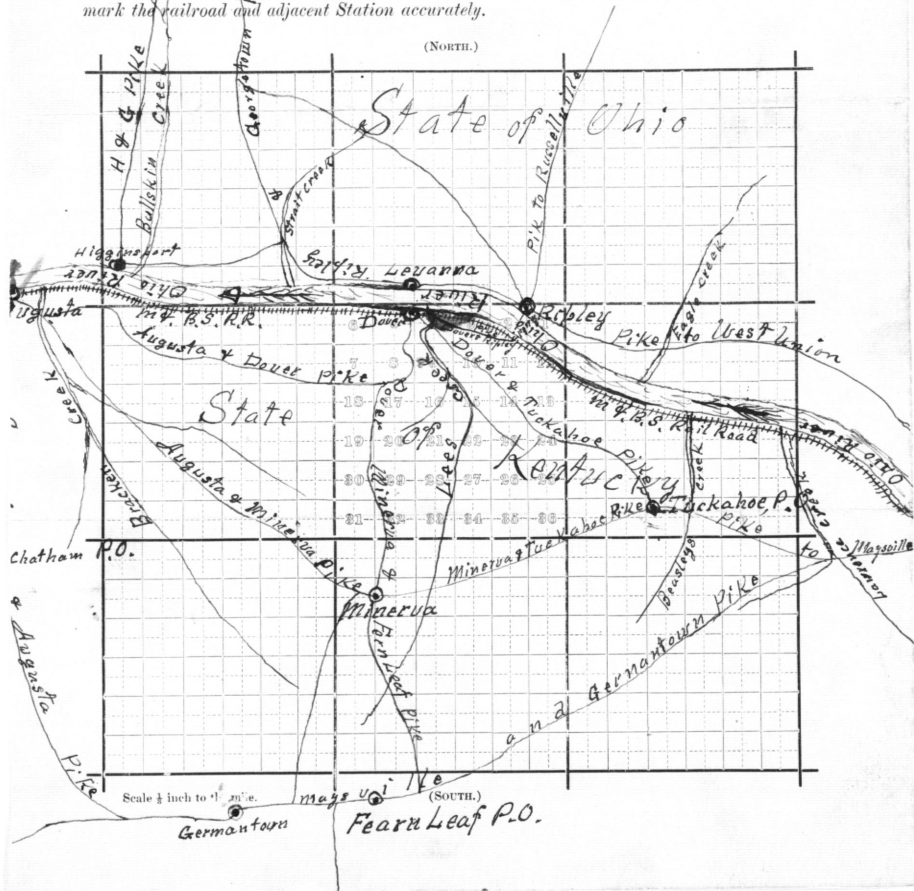

(Signature of Postmaster.) Chad C. Curran P. M.

(Date.) October 27th 1888

Diagram showing the site of the Dover Ky Post Office
 in Township _____ Range _____ of Principal
 Meridian, County of Mason _____, State
 of Kentucky _____, with the adjacent Townships and Post
 Offices.

It is requested that the exact site of the proposed, or existing Post Office, as also the roads to the adjoining Offices, and the larger streams or rivers, be marked on this diagram, to be returned as soon as possible to the Post Office Department. If on, or near a railroad, mark the railroad and adjacent Station accurately.

POST OFFICE DEPT.
 Fourth Assistant P. M. G.

 JUL 29 1939

(Date) _____

(Signed) Vernon M. Leonard
 Postmaster.

Post office Dover Ky.

IMPORTANT.—A map or sketch showing the location of your post office must be submitted with the return of this paper. A printed map, such as prepared by the county or city engineer, is preferred, if it can be furnished without expense to the Department. Be sure, however, to mark on it the exact site of the post office, placing a small dot in the proper square or block and on the proper side of the street.

If a separate map cannot be furnished it is necessary to submit a sketch as described below.

These diagrams are furnished simply to make it easier to draw a sketch that will show correct distances from your post office.

SQUARE DIAGRAM

Use this diagram if your post office is located in an area described by section, township, and range, and you have filled in line 3 on the other side. Otherwise use the circular diagram.

Place a small dot representing your post office in the proper quarter-section and fill in the blanks for township and range numbers.

Then draw the following features: (Note that one-half inch on the paper equals 1 mile on the ground.)

- a. Adjacent post offices (show with small dots and name).
- b. Railroads (show by single line with cross marks; name).
- c. Highways (show by double lines close together and mark U. S. and State numbers; name in margin of the post office to which each road leads).
- d. Rivers, creeks, lakes, etc. (show by wavy lines and name).
- e. County line (show by dashes).

CIRCULAR DIAGRAM

Use this diagram if your post office is NOT located in an area described by section, township, and range.

Let the dot in the center of the circle represent your post office.

Then draw the features a, b, c, d, and e, as described above. (Note the scale of this diagram: One-quarter inch equals 1 mile.)

Range E. or W.
